**HIGH SPEED INTERNET ACCESS ORDER FORM**

High speed, using T1 access, delivers performance up to **50** times the performance of standard dial-up modems. This fast connectivity is based on Ethernet 10BaseT, the standard network technology that most companies use to connect their networks today.

Customers are responsible for configuration and installation of their TCP/IP environment on computers equipped with Microsoft Windows 95/98/NT, Mac OS 7.5 or newer, and UNIX. For more information and instructions on this service, please call Wayport at (877) 929-7678.

**The following equipment is necessary to access the internet at T1 speeds:**

1. Ethernet Card
2. Ethernet Cable(s)
3. Ethernet hubs if connecting multiple computers (can be provided at a minimal cost)
4. This connection is free from any firewalls and proxy servers.
